#### ABOUT THE FG8000 SERIES

Trimco's FG Series of frame guards allows protection from wheeled equipment hitting and damaging door frames. Equipment such as wheelchairs, gurneys, heavy food carts and hospital beds will be deflected from hitting the door frame by the built-in roller. This product is manufactured in the USA from stainless steel and available in 3 standard sizes: 24", 36" and 42". The FG8000 Series is also UL Listed.

#### FEATURES

- Roller feature deflects wheeled equipment from damaging door frames.
