

# UCT - Ultimate Countertops

## ABOUT THE ULTIMATE COUNTERTOPS

Trimco's UCT - Ultimate Countertops can help prevent the spread of bacteria\* on commonly touched surfaces in retail stores, banks, hotels, and many other applications. They are available with custom dimensions or as transactional desk pads with multiple size options. The UCT's are manufactured with bactericidal copper alloy touch surfaces that are registered with the U.S. Environmental Protection Agency (EPA), and when cleaned regularly, have been proven to kill 99.9% of infectious bacteria\* like e-Coli, MRSA, Staph & VRE. It is not a coating but an all-natural, solid copper-based alloy that will last for the life of the product.

### FEATURES

- Healthy Hardware<sup>®</sup> countertops
- Help protect clients & employees from transmittal of harmful bacteria
- Manufactured with bactericidal copper alloy touch surfaces
- Proven to kill 99.9% of infectious bacteria\*
- Available in Standard Sizes or Custom Designs
- Installed via Heavy Duty Adhesive Tape, Cork Tape, or Construction Adhesive (Not Included)
- Cork Tape Installation allows Desk Pad to be easily relocated
- Includes Heavy Beveled Edges and Radius Corners

### APPLICATIONS

- Retail & Banking
- Public Buildings & Facilities
- Commercial & Industrial Buildings
- Government & Military Facilities
- Hospitality
- Multifamily & Mixed Use

\*Laboratory testing shows that, when cleaned regularly, CuVerro surfaces kill greater than 99.9% of the following bacteria within 2 hours of exposure: Methicillin-Resistant Staphylococcus aureus (MRSA), Staphylococcus aureus, Enterobacter aerogenes, Pseudomonas aeruginosa, E. coli O157:H7, and Vancomycin-Resistant Enterococcus faecalis (VRE). The use of CuVerro<sup>®</sup> bactericidal copper products is a supplement to and not a substitute for standard infection control practices; users must continue to follow all current infection control practices, including those practices related to cleaning and disinfection of environmental surfaces. This surface has been shown to reduce microbial contamination, but it does not necessarily prevent cross contamination. CuVerro<sup>®</sup> is a registered trademark of Wieland North America, Inc. and is used with permission (TR-0002-1509). See [www.CuVerro.com](http://www.CuVerro.com) for more details.
